Paul,

Looking through a Public Participation document sent out by EPA in 2013, it appears as though we have to give 30 days notice for a public hearing (<https://www3.epa.gov/npdes/pubs/publicparticipation.pdf>). It also looks like the public comment period is automatically extended until at least the close of the public comment period.

I'll send out an meeting invite for Wednesday so we can work on next steps.
